

MyScript Notes

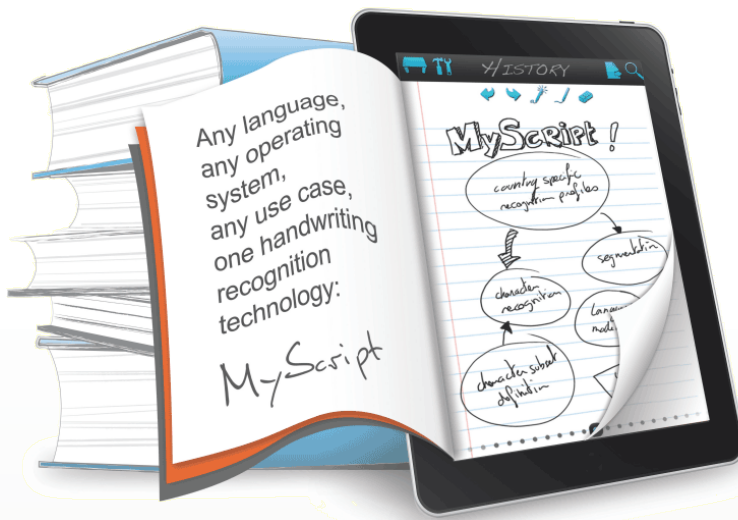

Mobile

MyScript Notes Mobile, the application which turns your Internet Tablet into a real library of virtual notebooks!

Get rid of your fountain pen and your heavy notebooks, but still keep the pleasure of handwriting!

With MyScript Notes Mobile, you can use your tablet as a

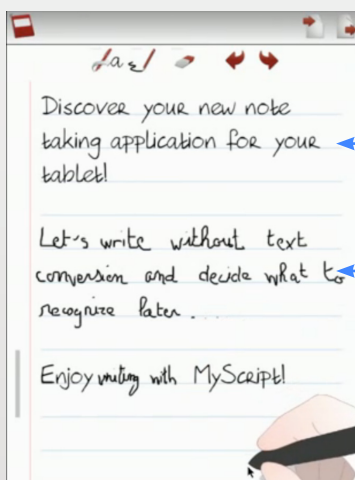

real notepad creating and customizing an unlimited number of notebooks in which you can draw, insert pictures and take notes with your own handwriting using a stylus or your finger. Available in 28 different languages, MyScript Notes Mobile also allows users to share information in a few clicks as it is synchronised with the most important communication tools, networks and cloud-applications (E-mail clients, Facebook®, Twitter®, Dropbox®, SharePoint®, etc).

FEATURES

✓ Desktop management

- The desktop offers multiple views: it is possible to drag to the left or the right and therefore organize your notebooks by category.
- You can create a new notebook with a simple tap on an icon and choose its color and its name.
- Of course you can also delete or re-arrange notebooks.

Text written with the Conversion pen: Real time recognition

Text written with the Drawing pen: Can be converted later

✓ Note taking

MyScript Notes Mobile offers all the tools to write, draw and erase. You can choose between 2 writing modes:

- **The conversion pen:** write your text, it is converted into digital information in real time.
- **The drawing pen:** you can write and make drawings and keep information as images. You will still be able to convert it later, if needed.

You can also insert pictures from a file or camera in notes and move or rescale them.

Text edition

Edit your notes as you write:

• Insert spaces:  **Along** ⇒ **A long**

• Delete spaces:  **A long** ⇒ **Along**

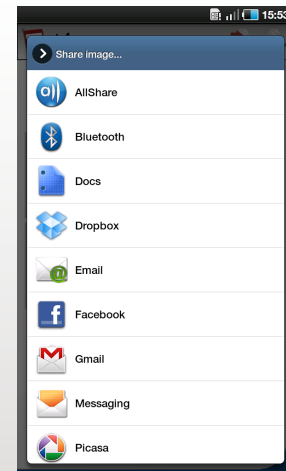

• Delete words, part of words or entire sentences:

Sharing

Share your notes: MyScript Notes Mobile also exports any piece of information as text or as an image to applications:

- e-mails
- Quickoffice®
- Facebook®
- Twitter®
- Evernote®
- SharePoint®
- Dropbox®
- Google® Docs, etc.
